

LOVE CATS? HATE CATS?

JOIN US AT A MEETING TO DISCUSS THE PRESENCE OF STRAY CATS ON OUR BLOCK.

There is help available to improve the situation, no matter which side you are on.

There is a very effective program that has been used by countless other neighborhoods around the city to stop the reproduction, yowling, fighting, and foul smell of marking territory.

Come to hear how we could quickly turn this situation around and manage things in a way that is best for all concerned.

You may be surprised that the most widely accepted and proven-effective method to reduce the numbers of cats is also the most humane.

Please join us for a civilized discussion of the concerns surrounding the cats, and what we can do together to improve the situation for all concerned.
